

# Communication solutions that add up

Boost your environment with real-time solutions

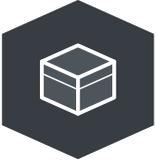

# Add state-of-the-art communication solutions

Times are changing. Real-time web-based communications are bringing unparalleled possibilities to different markets and segments. Add our communication tools to your solution to increase business performance by higher customer engagement and enhanced collaboration.

We offer three innovative web-based communication solutions that ensure a right fit for every deployment and enable customers to work more efficient, smarter and everywhere.

## Summa Connect®

Are you an ISP, Telco, Hosting Provider or an ISV with a successful web application or portal strategy? Then engage your users by easily introducing real-time communications into your web environment with Summa Connect. Create your own look and feel through easy plug-in web components. Being able to interact through instant messaging, voice and video without leaving your portal will connect your customers faster and more efficiently.

- + Integrate voice, video and chat in your portal or application
- + Designed for all browsers and platforms
- + Fully customizable
- + Based on open standards
- + PSTN breakout, audio- and video conferencing upsells available
- + Reduces churn
- + Enable upsells
- + Reliable platform

## Summa Suite®

Do your customers ask for more than just voice interaction? Summa Suite offers the most complete and advanced web-based Unified Communications suite available on the market for voice, video, instant messaging and collaboration tools. Fully customizable to your own look & feel, Summa Suite acts as an add-on to your existing voice platform or (virtual) PBX environment. Summa Suite is easy to deploy and scalable. Things really start to add up when you offer customers to communicate and collaborate anytime, anywhere with any device.

- + Add-on to your existing voice platform
- + Easy to deploy and scalable
- + Built completely in HTML and CSS
- + Fully customizable
- + Retain customers in your own portal
- + Offers a premium product
- + Reliable platform

## Summa Contact®

Web and social media identities are increasingly important to your customers. Summa Contact allows your customer to just be a click away from a lead or their customer. Summa Contact is a click-2-dial Web-phone, easy to configure and to integrate into a website or any other web identity. Availability is key, yet privacy is too, therefore the phone number will not be disclosed.

- + Bring customers in direct contact with their clients
- + Easy to embed into a website, banner or social media page
- + Worldwide customer engagement
- + Your customers don't need to disclose their mobile number
- + Customizable in own look & feel
- + Ease to implement, easy to configure and easy to use

## We are Summa

We believe that for things to add up you need to look at the complete picture. To see this picture we look at how people and systems communicate and collaborate. This way we can truly improve communication and create solutions that really add up.
